LETTER OF RECOMMENDATION

I am very pleased to recommend **Ms. Shuvechhya Lama** to attend your University/College. She was my student for two years in my physics class and she has always been one of my best students. Physics as such is one of the most difficult subjects but her intelligence, eagerness, enthusiasm; curiosity, hardworking and motivated nature helped her to cope with those difficulties. She has always done well in my subject in each term.

The most impressive factor in Ms. **Lama** is her character. She will to do something, her interactive and expressiveness, her sense of humour and her social behavior, have always been good. Although she used to spend a lot of time in her extra curricular activities, she was always punctual in her assignment, which was her strong point to complement her academic schedule with other activities.

I recommend Ms. **Lama** strongly as a person with a good moral character, ability to improve, initiative and intelligence, which will be an asset for your college.

I wish her every success in her future.

.....

Mr. Ashok Adhikari
Subject Incharge
Department of Physics

TO WHOM IT MAY CONCERN

Ms. Shuvechhya Lama has requested me to write a letter of recommendation on her behalf. She is seeking to pursue advanced study in your university.

My acquaintance with **Ms. Lama** began when she joined this school as a student of Grade XI and XII. She was a bona fide student of this school. **Ms. Lama** consistently maintained an outstanding record of academic performance through out her academic period in this school. Her keen interest in the subject matter is reflected in her participation in a couple of class discussion and her class performance. Her excellence in extracurricular activities has honored her with three medals in sports week.

I found in her, a pleasant personality injected with defatiguable energy and inherent flawless dedication towards her study and an eager learner with broad knowledge base and quick reasoning.

With all these traits, she will be an asset to your University. I, therefore, without any reservation hereby recommend her going abroad for academic pursuit.

I wish every success in her future undertaking.

.....

Dr. Madhav Prasad Baral
Principal
